DNA – Your Distribution Solution for Europe

DNA – Distribution Network for Investment Products

Distribution is in our DNA. Our network gives investors in the EU/EEA and Switzerland access to your products.

How does it work? Simple: your funds are integrated into our open distribution agreements with over 25 leading banks and distribution platforms. You remain in control and can focus your resources on asset management.

- ✓ One contracting party: No negotiations with distribution partners. No contract management.
- ✓ Full cost control: Flexibly choose your distribution channels and benefit from our special conditions.
- ✓ Commission management? We take care of it.
- ✓ Know-Your-Distributor: Full transparency regarding our oversight activities.
- ✓ Leverage the scale: Your funds become tradable even with the sub-distributors of our partners.

Reuss Private

MAXIMUM EFFICIENCY – FULL MARKET ACCESS!

DNA – Distribution Network for Investment Products

DNA is suited for asset managers of any size. Whether you've just launched your fund and are pursuing your first AUM target or are already established in the market and looking to delegate certain tasks.

EFFECTIVE With a single agreement, you gain access to our continuously growing network. We handle contract management with distributors, due diligence, and the calculation and payment of distribution fees. Giving you more time for your strategy.

TAILORED With Reuss by your side, you receive a customized and sustainable distribution solution. We are happy to advise you and implement the right strategy for you and your funds.

FLEXIBLE You choose your distribution channels and markets – and can adjust them at any time. Have a specific distribution partner in mind who isn't yet in our network? We'll take care of the negotiations and onboarding. Exclusively for you, if desired.

TRANSPARENT Stay on top of everything with position reports, KYD results, information about network expansions, commission statements, and more.

Ready for next-level distribution? Let's get started!
